

# BAYLISS, JONES & BAYLISS LTD

*Gates, Railings & Fencing,  
Seating & Tree Seats,  
Pergolas & Archways,  
Balustrading & Balconies*

Bayliss Jones & Bayliss was founded in Wolverhampton in 1826 manufacturing iron products including sheep hurdles, railings, gates, stable fittings and ornamental ironwork.

Today the company practices the same high standards as set out nearly 200 years ago.

The range is now somewhat greater and a bespoke service is available for any project or commission.

# Gates Railings

Metal gates are the classic choice to create a striking entrance to your property. Our craftsmen can replicate any design of gate, ensuring you have the entrance of your desire. With a range of automation options available you'll have more control over who is entering your property.

As well as beautiful entrance gates we also manufacture a range to suit every option including garden gates, archway gates, kissing gates and field gates. Contact our Farnham branch to discuss your needs.

Kissing Gate & Railings (above)

Iron railings have been the staple of BJB for nearly 200 years, and can range from farm and parkland traditional railings to stunning railings for gardens, patios, verandahs and balconies.

There are many styles of railings and the company has in the past manufactured and installed for the following projects:

# Seating

As outdoor living has become the norm as a result of the COVID 19 lockdowns, people are looking for traditional metalwork outdoor seating which gives a look of style and quality.

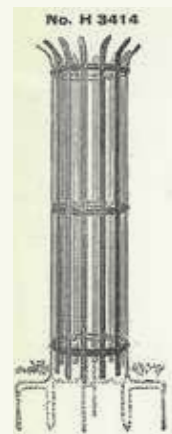

Illustration H3558 shows the sort of design that was being manufactured in the 1930's, which has the enduring popularity in today's market.

## Tree Seats

Tree seat design has altered little in 100 years, and has had a revival in recent times as people become more aware of enhancing and protecting their environmental surroundings. All manner of designs can be replicated so please ask our Farnham team for more information.

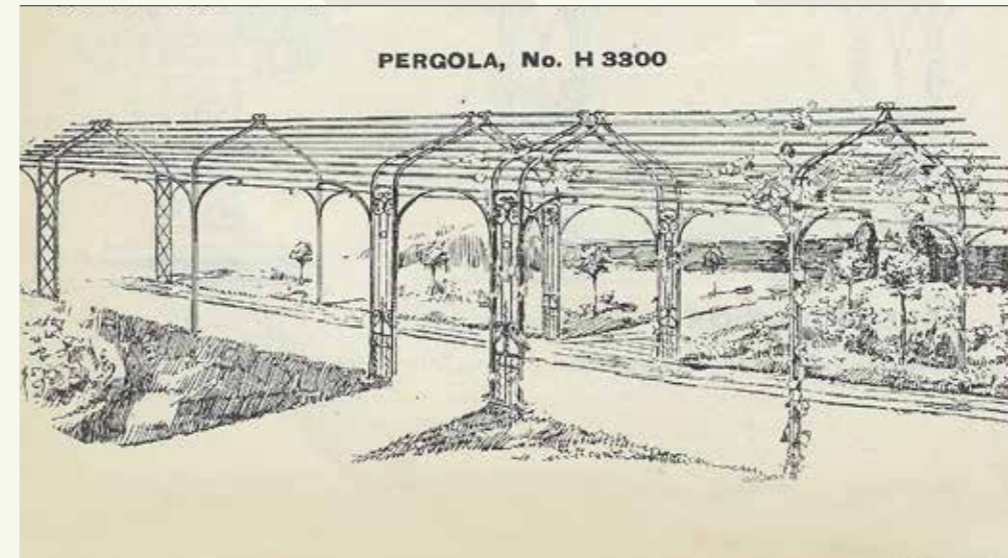

## Tree Guards

# Pergolas Archways

A beautiful addition to any garden, large or small, a pergola or archway is the perfect place for seating, bbqs and encouraging stunning climbing plants.

Design can be traditional or ultra-modern, the end result will always please.

# Balustrading Balconies Staircases

Internal or external balustrading is multi-functional, not only protecting an area of open elevation, but also to enhance the view that elevation brings.

Indoor balustrading is often seen in modern shopping centres, commercial buildings and hotels. It is also becoming a design element in modern residential and home refurbishments, again both the modern look and traditional styling suiting a variety of properties.

# Outdoor Living

Our modern, state of the art laser cutter offers the customer a unique design service, beautifully creating bespoke items.

With outdoor entertaining now part of our everyday lives, the popularity of fire pits, modern style chimineas and stunning cooking facilities have become paramount to the ultimate luxury in not only keeping warm on chillier evenings, but enjoying the outdoor environment with friends and family.

## Fire Pits

With a bespoke fire pit you can enjoy the luxury of a wood fire outdoors, and they can be made to any design and size to suit your needs. Additional items can be included to turn your firepit into a functional BBQ and grill.

## Chimineas

Modern design chimineas are an elegant garden fireplace that will produce a lovely heat and a glowing warmth.
